

Santa Fe Springs General Plan Update Community Workshop #3 Summary

Date and Time: March 31, 2021; 6:00 PM to 8:00 PM

Welcome

The City of Santa Fe Springs hosted a digital community workshop on Wednesday, March 31, 2021, using Zoom video conferencing. The workshop focused on two General Plan topics: Environmental Justice and Housing. An interpreter was available for Spanish-speaking participants. Participants who participated in the workshop were entered into a raffle for a chance to win one of ten gift cards to local restaurants and retail stores in the City.

Approximately 48 participants attended the workshop, including City staff and consultants. Laura Stetson and Jose Rodriguez of MIG facilitated the meeting. Discussion notes are included in Appendix A. The PowerPoint Presentation is included in Appendix B.

Presentation and Discussion

The meeting began with opening remarks from Wayne Morrell, Director of Planning. The presentation then shifted over to Jose Rodriguez, from MIG, who welcomed participants to the meeting and led introductions. After introductions, Mr. Rodriguez began the presentation by providing an overview of the General Plan update and the overall significance of the Housing and Environmental Justice Elements.

The first section of the presentation covered Environmental Justice and Community Needs. The second section of the presentation focused on the Housing Element Update.

For Environmental Justice, Mr. Rodriguez identified the disadvantaged communities within the City, providing data and maps reflecting pollution burdens and socioeconomic conditions. The presentation, through a series of interactive polling, provided opportunities for participants to prioritize strategies to address community needs, including approaches to minimize pollution burdens, increase walking and

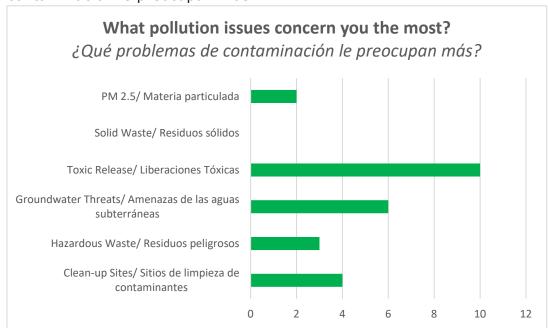

biking, healthy food access, increase access to parks and active living, community services more community engagement, and expand housing options.

The second part of the presentation focused on the Housing Element. Ms. Stetson discussed the Regional Housing Needs Assessment and how the City could accommodate new housing units. She also talked about how different residential densities could be assigned to different affordability levels and where new housing can be built through the proposed Draft Land Use Plan.

See the results of the interactive polling on the following pages.

1. What pollution issues concern you the most?/ ¿Qué problemas de contaminación le preocupan más?

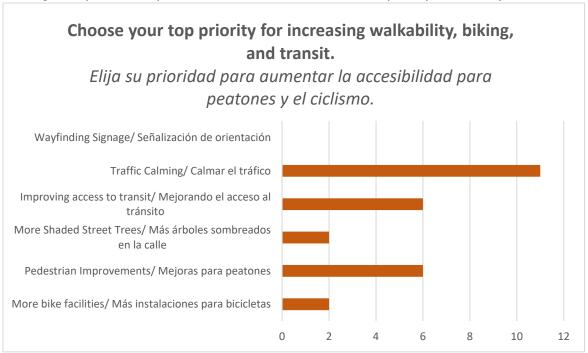

2. Choose your top strategy to improve air quality and reduce pollution./ Elija su mejor estrategia para mejorar el aire y reducir la contaminación acústica en su vecindario.

Page 3

3. Choose your top priority for increasing walkability, biking, and transit./ Elija su prioridad para aumentar la accesibilidad para peatones y el ciclismo.

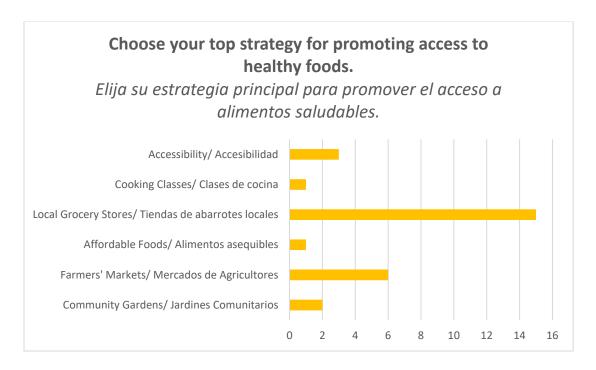

Choose your top strategy for promoting access to parks and active living./
Elija su estrategia principal para promover el acceso a los parques y la vida
activa.

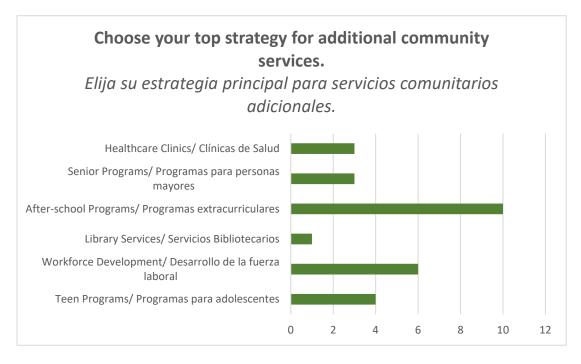

5. Choose your top strategy for promoting access to healthy foods. / Elija su estrategia principal para promover el acceso a alimentos saludables.

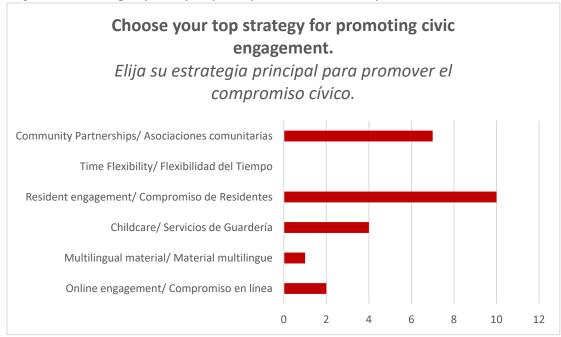

6. Choose your top strategy for additional community services./ Elija su estrategia principal para servicios comunitarios adicionales.

Community Workshop #3: Summary

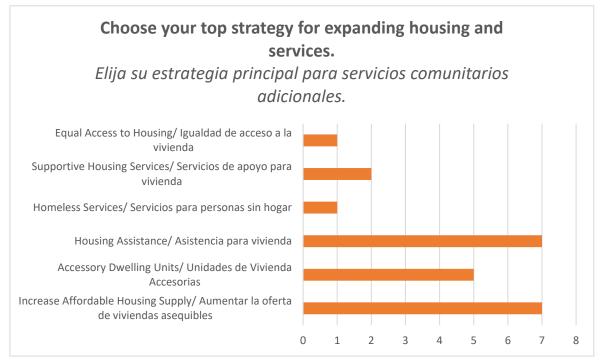

7. Choose your top strategy for promoting civic engagement./ Elija su estrategia principal para promover el compromiso cívico.

Community Workshop #3: Summary

8. Choose your top strategy for expanding housing and services./ Elija su estrategia principal para servicios comunitarios adicionales.

The group discussion was documented using a digital white board, available in Appendix A.

Adjournment and Next Steps

After the group discussion, the City and consultant team thanked everyone for coming. Ms. Stetson invited participants to stay involved by visiting the General Plan website, and taking the online survey. She then explained the next steps for the General Plan updates, and that there would be additional workshops and opportunities for residents to continue to engage.

Community Discussion Summary

Question 1

What pollution issues concern you the most? ¿Qué problemas de contaminación le preocupan más?

Overall noise reduction is needed a concern as long as source for goods movement.

Diesel idling is gonna be It would be great to see the City work with State Legislature to try to enact policies that provide diesel is the primary fuel rebates & subsidies for truckers to upgrade to zero & near zero emission vehicles which don't emit the same pollutants

For question No 1 Noise Reduction - Big issue with traffic noise after 10pm on newly widened Florence Ave between Orr and Day and Pioneer due to street racing. Need reduced speeds and law enforcement

Question 2

What is the best strategy to improve air quality and reduce air pollution? ¿Qual seria la mejor estrategia para mejorar el aire y reducir la contaminación acústica en su vecindario?

Please stop Industrial Development on Empty Oil lots.

Living by the 5, how are the residents there affected.?

Traffic on Florence, a lot of idle cars. Light nanagement (traffic lights) -City doesn't control exit, which impacts Florence

It concerns me with the 5 & 605 next to our community.

Can you ask the SFS businesses example (Eateries) provide and maintain more trash cans and lighting.

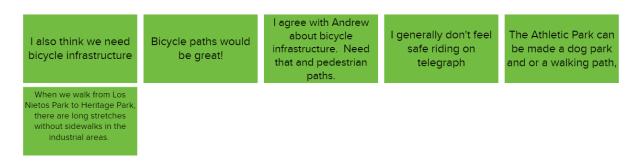

There is an oder that pops up when the winds shift I'm not sure what business is causing this issue

What's the city's plan for the oil lots at Telegraph and Bloomfield?

Question 3

What is the best strategy for increasing walkability, biking, and transit? ¿Qual seria la mejor estrategia para aumentar la accesibilidad para peatones y el ciclismo?

Question 4

What is the best strategy for promoting access to parks and active living? ¿Qual seria la mejor estrategia para promover el acceso a los parques y la vida activa?

The industrial areas can use a park for employee breaks etc	Dog parks	Yes! We need a Dog Park ①	The industrial areas can use a park for employee breaks etc	I have seen parks with metallic exercise equipment. That would be cool to add to Los Nietos Park.
More playground equipment that meets various modes of mobility.	Traffic to the parks	anyway to keep some of the fields open during the turf renovation?	SFS Park, my daugther saw drug dealing when she was there last week, scared her off.	

Question 5

What is the best strategy for promoting access to healthy foods? ¿Qual seria la mejor estrategia para promover el acceso a alimentos saludables?

Question 6

What is the best strategy for additional community services? ¿Qual seria la mejor estrategia para servicios comunitarios adicionales?

The loss of the Bank of America is the loss of a community service.

Question 7

What is the best strategy for promoting civic engagement? ¿Qual seria la mejor estrategia para promover el acceso a los parques y la vida activa?

We need to revamp the City website.

zoom and mailer reminders were great City posted about meeting on Facebook page.

Question 8

What is the best strategy for expanding housing and services?
¿Qual seria la mejor estrategia para servicios comunitarios adicionales?

Concern of parking spaces, with the addition of more housing units.	Need for regulation on ADU development, as it may increase parking space needs.	ADUs can ruin a city's "charm"	Maybe the city can take a different approach towards parking permits for cars on the streets.
Mixed use with commercial/ retail on the ground floor and residential above is the easiest way to meet both needs of the city	As an option, there could be a live/work housing development.	The main street on Alhambra is an good example for mixed use	Could industry assist by adding housing on site? e.g. above businesses.

Question 4

What is the best strategy for promoting access to parks and active living? ¿Qual seria la mejor estrategia para promover el acceso a los parques y la vida activa?

The industrial areas can use a park for employee breaks	Dog parks	Yes! We need a Dog Park []	The industrial areas can use a park for employee breaks
etc			etc
More playground equipment that meets various modes of mobility.	Traffic to the parks	anyway to keep some of the fields open during the turf renovation?	SFS Park, my daugther saw drug dealing when she was there last week, scared her off.

Question 5

What is the best strategy for promoting access to healthy foods? ¿Qual seria la mejor estrategia para promover el acceso a alimentos saludables?

99 Cents Store has a lot of reasonably priced foods though.	I think we should consider education around food choices. We can provide a grocery store but it doesn't mean folks will make healthy food choices.	Also, sfs isn't necessarily a healthy food desert but it isn't easy to find healthy food options either so how do we bring in healthier food restaurants so that residents have alternate options when dining out.	Healthy food options should be accessible by bringing in grocery stores that target healthy living (Trader Joe's, Whole Foods, etc.).	By inviting these stores into our neighborhood and making them walking distance, it is two-fold where we can get the options and are walking distance to access.
There's been a number of markets at	I think its the layout of the	no traders ioe would		Maybe not that particular

Question 7

What is the best strategy for promoting civic engagement? ¿Qual seria la mejor estrategia para promover el acceso a los parques y la vida activa?

ENVIRONMENTAL JUSTICE JUSTICIA AMBIENTAL

Community Workshop #3

March 31, 2021 | Zoom Video Conferencing

Taller Comunitario #3

31 de Marzo, 2021 | Videoconferencia de Zoom

What is Environmental Justice? ¿Qué es la Justicia Ambiental?

When communities bear a disproportionate burden of pollution and health risks

Algunas comunidades soportan una carga desproporcionada de contaminación y riesgos para la salud

Environmental justice actions seek to correct this inequality.

La Justicia Ambiental busca corregir esta desigualidad.

What is a Disadvantaged Community?

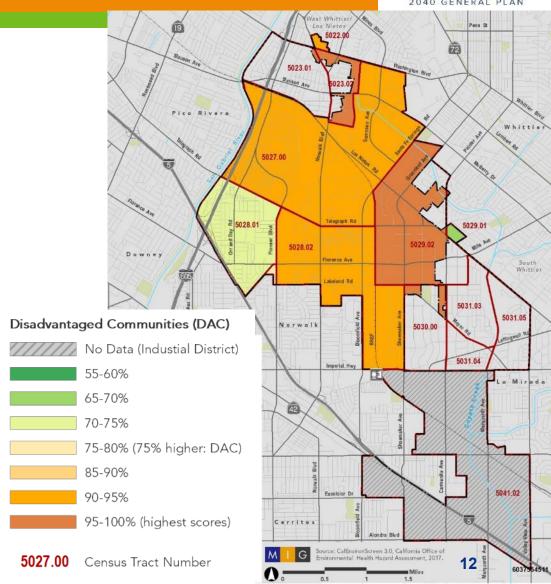

¿Qué es una Comunidad Desfavorecida?

2040 GENERAL PLAN

"Disadvantaged communities" refers to areas which suffer most from a combination of economic, health, and environmental burdens.

Las comunidades desfavorecidas se refieren a las áreas que más sufren de una combinación de cargas económicas, sanitarias y ambientales.

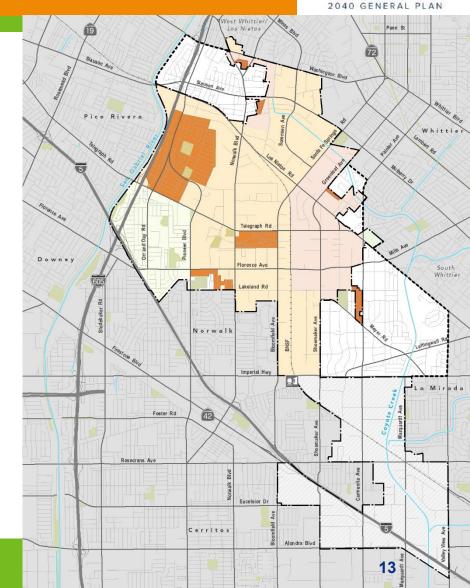

What is a Disadvantaged Community?

¿Qué es una comunidad desfavorecida?
